

Referral Bonus Redemption:

Once the referred student has paid off the entire program fee and completed the 30% of full program length and the referring student has no financial obligations with the college, the student referral bonus is entitled:

- When a student comes to Brighton College for the first time, they will be asked to fill in the Basic Information Form. The student needs to select one of the boxes of "How Did You Hear about Us?" to provide the inquiry resource information.
- If an agent would like to be regarded as a referring agency for a student, they should either bring the student to Brighton College in person and get the application form filled, or collect the application form with application fee and forward it to Brighton College.
- If two application forms are submitted for one student from two different agencies, we will consider the application with application fee as the referring agency.
